

*Shaping your  
acoustic environment.*

**Artnovion** Pro Audio & Studio Catalog

*Passion for Acoustics.*

***We are Artnovion***

At Artnovion we are driven by passion. Passion for acoustics, passion for performance and an eternal passion to provide an amazing customer experience. With a talented team, we work hard to push the boundaries of acoustic engineering to create a unique collection of trendsetting and high performance products.

**Pro Audio & Studio Catalog  
2018 | 2019**

Artnovion's Pro Audio & Studio range was created to satisfy the needs of the music and entertainment industry. People from all over the world unite to dedicate themselves to the challenges of the sound and music industry, tackling the needs of musicians and audio professionals. Artnovion has developed a

comprehensive range of acoustic panels for absorption, diffusion and low frequency treatment; that can be used to create specific acoustic treatments for spaces such as broadcasting, recording, and post-production studios. Different environments require specific treatments, with this range we want to help construct your perfect solution.

***Why Artnovion***

**20% Increased  
Performance**

Optimized on both sides.

**33% Space  
Optimization**

Nested foam design.

**Anti-Warping  
Technology**

Unique frame design.

**Fire safety**

Available in either standard (FC) or fire rated versions (FR+).

**Complexity  
Simplified**

Mechanical fixing systems for our entire range of products.

## The Speaker Stand

### PORTO-V

The new Porto-V Speaker Stand from Sessiondesk provides the most flexible and acoustically optimised solution for your speakers. The heavy POLIPLIX and steel construction makes the stand stable and non-resonating for the clearest speaker signal. The extensive adjustment possibilities guarantee your speakers are always in the perfect position.

**Dimensions:**  
1140x920x1000mm

**Weight:**  
25 kg  
Max speaker weight: 35 kg

## Basic series

### GUSTAV

18 Units Rackspace.  
Middle back part is adjustable up and down.  
Surface for near-field speakers.

**Dimensions:**  
2348x1127x920mm  
**Wood Finishes:**  
POLIPLIX® in 4 standard colours:  
60s brown | 70s white | 80s grey | 90s black

### OKTAV

18 Units Rackspace.  
Middle back part is adjustable up and down.  
Surface for near-field speakers.  
Optional keyboard drawer.

**Dimensions:**  
1566x1000x920mm  
**Wood Finishes:**  
POLIPLIX® in 4 standard colours;  
60s brown | 70s white | 80s grey | 90s black

### QUINTAV

18 Units Rackspace.  
Surface for near-field speakers.  
Optional keyboard drawer.

**Dimensions:**  
1064x1000x920mm  
**Wood Finishes:**  
POLIPLIX® in 4 standard colours;  
60s brown | 70s white | 80s grey | 90s black

## Modularsystem

### TRAPEZ

The desk with a twist, available in four different sizes - transforming every room into a recording studio, giving you total control.  
Optional keyboard drawer.

**Dimensions:**  
Trapez-040 | 2220x920x1140mm  
Trapez-060 | 2420x920x1140mm  
Trapez-080 | 2620x920x1140mm  
Trapez-100 | 2820x920x1140mm

The front edge of the middle part is configurable to 40, 60, 80, or 100cm width.

### TRIO

The Trio provides the most space for your recording and mastering gear.  
Together with three lower racks you get up to incredible 72U of rack space in one studiodesk.  
Optional keyboard drawer.

**Dimensions:**  
1670x920x1000mm

### DUO

A solution for medium sized production and recording studios.  
Optimized for working with two screens.  
Optional keyboard drawer.

**Dimensions:**  
1140x920x1000mm

## Impulso App

### A unique acoustic measurement App

A high accuracy user-friendly acoustic measurement App.

More than simply a measurement tool, Impulso is designed to assist audio professionals, hi-fi enthusiasts and engineers tune their rooms without requiring specialist training. With a user-friendly layout, the room measurement is carried out in a few easy steps via the app's intuitive interface.

Impulso provides the reverberation time graph of the space, then allows you to simulate using Artnovion products and how the room acoustics improve in real-time, providing the adjusted reverberation time graph. For users acquainted with acoustic analysis, the app also provides full acoustic metrics, such as an ETC and frequency plot.

Artnovion is featured in The CEDIA Designer, the world's first web-based home theatre design software.
