Personal Audio

audio-technica

A passion for Listening

In 1962, our founder, Hideo Matsushita, left an established position at the Bridgestone Museum of Art in Tokyo to open the doors of Audio-Technica in a one-story workshop handcrafting stereo phonograph cartridges.

Over 50 years later Audio-Technica has grown into a worldwide audio innovator - offering with each new product more of the acclaimed fidelity and durability that has become synonymous with our name.

From its Japanese roots, the company continues to deliver new products with a greater longevity and superior sound performance; specialising in the design and manufacture of headphones, amplifiers, microphones, turntables, and cartridges.

Design excellence, sound expertise, creativity and a passion for listening are the core values behind Audio-Technica's legacy, all of which can be experienced in our latest collection.

Connect with us

Log on to [audio-technica.com](https://www.audio-technica.com) for in-depth product information, press releases, interviews, product literature, technical support and much more.

Flagship Store

In the heart of Paris, the first arrondissement, only a few blocks away from the Louvre and luxurious Place Vendôme, Audio-Technica are proud to showcase the latest in audio technology within its first European Flagship Store.

Focusing on our expansive headphone range, it allows visitors to try and compare each product so they can find the model that suits their specific requirements.

The first European Flagship Store by Audio-Technica is the perfect place to try the latest in headphone and audio technology as well as offering the opportunity to experience exclusive products only available in the store.

ATH-DSR9BT

Digital Wireless Headphones
with Pure Digital Drive™

- Pure Digital Drive™ system delivers the original digital signal from source to driver for you to hear the full digital transmission
- New 45mm True Motion D/A drivers, developed exclusively for the DSR9BT, featuring 4-core twisted OFC-7N voice coil and diaphragm with DLC (diamond-like carbon) coating, for extremely accurate audio reproduction with extended high frequencies
- Luxury memory foam creates a personalised fit and evenly disperses weight across the head allowing you to listen for longer
- High-Resolution audio compatible with USB connection (up to 96kHz/24-bit)
- Bluetooth® 4.2 supports Qualcomm® aptX™, Qualcomm® aptX™ HD, AAC and SBC codecs
- Touch control and volume switch for managing music playback and calls
- LED indicators display pairing and charging status, battery life and codec in use
- Includes 2.0m USB connection cable and hard storage case.

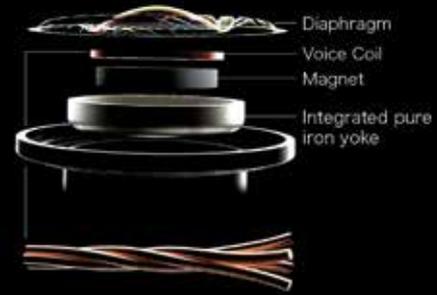

Digital Wireless Audio

Wireless music has never sounded so pure.

The first headphones to employ the Pure Digital Drive™ system, Audio-Technica's DSR series delivers the original digital signal from source to driver without the need for D/A conversion that typically degrades sound quality, allowing you to hear details never experienced in the wireless realm.

The 7N-OFC "4-core" structure features a bobbin-wound short voice coil

Pure Digital Drive™

Wireless digital audio signals are transmitted via Bluetooth® technology direct to the headphone driver. Unlike conventional wireless headphones, the signal remains fully in the digital domain from source without the need for Digital-to-Analog conversion and typical sound degradation.

True Motion D/A Drivers

45mm True Motion D/A drivers combine a high-purity, 7N-OFC four-core voice coil that transmits the original digital signal for audio accuracy with a Diamond-Like Carbon (DLC) coated diaphragm for increased rigidity and enhanced frequency response.

High-Fidelity Headphones

AZDC

ATH-ADX5000

Open-Back Dynamic Headphones

- 58mm integrated driver units utilise a Permendur magnetic circuit with exceptional magnetic characteristics
- Japanese craftsmanship: Each headphone is carefully hand assembled in Tokyo
- Tungsten-coated diaphragm provides high rigidity for an improved transient response
- Integrated driver unit design combines diaphragm, voice coil, baffle and magnet in single unit to reduce unwanted vibration
- Each pair of headphones is individually identified by a laser etched serial number and comes with a specially designed hard carrying case
- Newly developed Core Mount Technology places driver unit in optimal position for improved airflow and excellent full range audio reproduction
- Magnesium frame and arms result in rigid, thin, lightweight construction.

ATH-B1XA/3.0

Balanced Cable for ATH-ADX5000 Headphones

- 3.0m Y-type balanced cable
- A2DC (Audio Designed Detachable Coaxial) connectors at the headphones to ensure a secure connection and stable signal transmission
- Neutrik XLR4 (male) gold-plated output connector with ergonomic, velour-chromium housing.

ATH-AD2000X

Open-Air Dynamic Headphones

- Large aperture 53mm drivers, designed exclusively for the ATH-AD2000X
- Permendur magnetic circuitry and OFC-7N voice coils
- Super lightweight magnesium alloy componentry
- Highly durable and lightweight baffle with fin-shaped airflow path
- Proprietary 3D wing support system
- Slow recovery foam earpads with high durability, smooth textured suede
- Includes 6.3mm stereo adapter.

ATH-AD1000X

Open-Air Dynamic Headphones

- Large aperture 53mm drivers, with OFC-7N voice coils, designed exclusively for the ATH-AD1000X
- High rigidity magnesium alloy frame with lightweight design
- Dual-sided four-core cord with independent ground wires for left and right channels
- Open-air earcup design
- Proprietary 3D wing support system
- Elastomer sheath/PCOCC/3.0m dual-sided, four-core cable
- Includes 6.3mm stereo adapter.

ATH-AD900X

Open-Air Dynamic Headphones

- Audiophile quality open-air headphones deliver clear, natural vocal and instrumental reproduction, a smooth tonal balance, precise imaging and superlative dynamic range
- Large-aperture 53mm drivers and CCAW voice coils for superior sound reproduction
- No sense of pressure on the ears, resulting in a completely natural sensation
- 3D Wing Support Housing offers a vibration proof mechanism that provides comfortable support for a better listening experience
- Includes 6.3mm stereo adapter.

ATH-AD700X

Open-Air Dynamic Headphones

- Newly designed 53mm drivers with bobbin-wound CCAW voice coils reproduce clear treble and midrange
- Full open-air type headphones produce no sense of pressure on the ears, resulting in a completely natural sensation
- Lightweight aluminium honeycomb casing with excellent acoustic properties
- Self-adjusting 3D Wing Support provides a comfortable listening experience; total ear-fit design minimises pressure
- Includes 6.3mm stereo adapter.

ATH-AD500X

Open-Air Dynamic Headphones

- Newly designed 53mm drivers with CCAW voice coils reproduce remarkably natural sound, with deep, impactful bass and outstanding vocal projection
- Open-air headphones produce no sense of pressure on the ears, resulting in a completely natural sensation
- Lightweight honeycomb aluminium casing
- Self-adjusting 3D Wing Support Housing provides comfortable support for a more enjoyable listening experience
- Includes 6.3mm stereo adapter.

ATH-W5000

High-Fidelity Closed-Back Headphones

- Striped ebony housing provides superb acoustic characteristics
- Earpads cushioned in leather feature Audio-Technica's ultra comfortable total ear fitting design
- Driver unit incorporates a Permendur magnetic circuit with exceptional magnetic characteristics
- High quality 8N-OFC (oxygen free copper) voice coils for ultra efficient signal transfer
- Includes hard case and cable storage bag.

ATH-W1000Z

High-Fidelity Closed-Back Headphones

- 11th generation of Audio-Technica's prized W Series
- Pure teak wood housing produces warm, resplendent sound
- 3D wing support for a great fit and long wearing comfort
- Large 53mm aperture drivers feature specially built two part magnetic circuit that produces high speed magnetic streams for improved sound quality
- D.A.D.S. (Double Air Damping System) structure provides deep bass reproduction
- Floating mount system brings out the natural sound properties of the wood housing
- 3.0m tangle free conductor cable with thermoplastic elastomer sheath
- 6.3mm gold plated stereo plug with wooden sleeve.

ATH-L5000

High Fidelity Dynamic Headphones

- 58mm driver units include a lightweight CFRP (Carbon Fibre Reinforced Plastic) flange for improved airflow and diaphragm movement
- Diaphragms with diamond like carbon (DLC) coating deliver exceptional full range audio
- Sycamore wood housings, covered with the finest Connolly aniline leather, give headphones a natural acoustic signature
- Includes detachable 3.0m cable with A2DC (Audio Designed Detachable Coaxial) connectors, and is compatible with the AT-B1XA balanced cable
- Comes with padded, hard-shell storage case
- Limited production worldwide.

It was 15 years ago that Audio-Technica first collaborated with the company Connolly who supplied the high quality leather for our first leather headphones ATH-L3000 in 2003. Now with the latest headphones technology Audio-Technica has again developed a brand new High-End leather headphone to provide the highest comfort and listening experience.

Connolly is a very special 139-year-old British brand, founded in 1878 as a small family business of saddlers and shoemiths. As the car industry developed, so Connolly grew with it and evolved to become the globally-renowned supplier of highly-finished leather for the automobile industry. Connolly leather has also been used on many of Britain's most famous seats, including the House of Commons (green), the House of Lords (red), the desks of the British Library, the iconic Eames recliner chair, Concorde, and even the Queen's Coronation coach.

- Class A hybrid headphone amplifier with tube and bipolar transistors offering a unique sound character with warmth and musicality
- State-of-the-art DAC samples 384kHz/32-bit PCM, and DSD audio sources at 2.8/5.6MHz
- Selectable asynchronous and adaptive modes
- High quality Lundahl input transformers to reproduce the best sound quality.

System Requirements	A computer with a USB 2.0 port CPU Intel Core 2 CPU 2.2GHz above or equivalent AMD CPU RAM 32bit OS 2GB or more, 64bit OS 4GB or more
Compatible OS	Windows 7, Windows 8, Windows 8.1, MacOSX 10.9
Compatible Headphones Impedance	16 ohms ~ 600 ohms
Maximum Output Level	Instantaneous Maximum Output Level: 2,000mW + 2,000mW (16 ohms load) 1,000mW + 1,000mW (32 ohms load) 500mW + 500mW (64 ohms load) 62mW + 62mW (600 ohms load) Rated output (20 ~ 20,000Hz): 125mW + 125mW (16 ohms load) 62mW + 62mW (32 ohms load) 31mW + 31mW (64 ohms load) 3.3mW + 3.3mW (600 ohms load)
Frequency Response	Line input: 5 ~ 200,000Hz (0, -1dB at 32 ohms 10mW output) XLR input: 5 ~ 200,000Hz (+0.5, -2dB at 32 ohms 10mW output)
Total Harmonic Distortion (T.H.D.)	0.08% or less (20Hz ~ 20kHz at 32 ohms 10mW output)
Input	Analog input: Line input (pin jack) x2, XLR connector x 2 Digital input: USB (Type B) x1 Asynchronous mode DSD128 (5.6448MHz), DSD64 (2.8224MHz): 24bit ~ 32bit / PCM 384kHz, 352.8kHz, 192kHz, 176.4kHz, 96kHz, 88.2kHz, 48kHz, 44.1kHz, 32kHz: 16bit ~ 32bit Adaptive mode: DSD incompatible PCM 192kHz, 176.4kHz, 96kHz, 88.2kHz, 48kHz, 44.1kHz, 32kHz: 16bit ~ 32bit Digital input: Digital coaxial (S/PDIF) x 1 PCM 192kHz, 176.4kHz, 96kHz, 88.2kHz, 48kHz, 44.1kHz, 32kHz: 16bit ~ 24bit
Output	Headphone Output 6.3mm standard stereo jack (output impedance 0.1 ohms) x2 6.3mm standard stereo jack (output impedance 33 ohms) x2 6.3mm standard stereo jack (output impedance 82 ohms) x2 6.3mm standard stereo jack (output impedance 120 ohms) x2
DA Converter	Frequency Response: 5-100,000Hz (0, -1.5dB) Total Harmonic Distortion: 0.0006% or less (20-20,000Hz) SN Ratio: 113dB (A Weighted, 1 Vrms output) Separation between channels: 110dB (20-20,000Hz)

Gaming

Headsets

ATH-AG1X

Award-winning composer, audio director and musician Frank Klepacki has been a key player in the gaming industry since the early 1990s. His groundbreaking, cinematic scores and sound designs have pushed technological and musical boundaries, raising the art of video game soundtrack production to an unprecedented level.

A different level of gaming

Frank depends on Audio-Technica products when creating in the studio. So it's little wonder that he also recommends A-T's high-fidelity gaming headsets to those wanting to hear all the power and nuance of his work. Experience the games as Frank intended, and take yourself to a different level of gaming.

ATH-ADG1X

High-Fidelity Open-Air Gaming Headset

- Advanced 53mm drivers provide extremely accurate sound reproduction for “FPS” and other games
- Improved 3D Wing Support system offers hours of comfort and a secure fit
- Audio-Technica’s state-of-the-art microphone enables crystal clear in-game voice communication
- Extremely soft earpads provide superior comfort for extended game play
- Equipped with 1.2m attached cable and 2.0m extension cable
- Included microphone windscreen reduces unwanted wind and breath noise.

ATH-AG1X

High-Fidelity Closed-Back Gaming Headset

- Newly designed 53mm drivers deliver powerful audio for the ultimate gaming experience
- Improved 3D Wing Support system offers hours of comfort and a secure fit
- Audio-Technica’s state-of-the-art microphone enables crystal clear in game voice communication
- Extremely soft earpads provide superior comfort for extended game play
- Equipped with 1.2m attached cable and 2.0m extension cable
- Included microphone windscreen reduces unwanted wind and breath noise.

ATH-PDG1

Premium Open-Air Gaming Headset

- Large 40mm drivers with CCAW voice coils for unrivalled sound quality
- Open-air honeycomb aluminium design for the gamer who values a natural sound and feel
- Premium flexible gooseneck boom microphone with in-line volume & mute controller delivers crystal clear voice communications in any environment
- Strong, lightweight construction with ultra comfortable leather headband suitable for long gaming sessions
- 3 x detachable cables: 1.2m cable with mic for PC & PS4; 1.2m smartphone cable; 2.0m extension cable for PC gaming
- Compatible with PS4, Smartphones & PC. Also compatible with Xbox One using the Xbox One Stereo Headset Adapter (www.xbox.com).

ATH-PG1

Premium Closed-Back Gaming Headset

- Large 44mm drivers for superior in game sound quality
- Closed-back design for the gamer who wants to become immersed in another world
- Premium flexible gooseneck boom microphone with in-line volume & mute controller delivers crystal clear voice communications in any environment.
- Strong, lightweight construction with ultra comfortable leather headband suitable for long gaming sessions
- 3 x detachable cables: 1.2m cable with mic for PC & PS4; 1.2m smartphone cable; 2.0m extension cable for PC gaming
- Compatible with PS4, Smartphones & PC. Also compatible with Xbox One using the Xbox One Stereo Headset Adapter (www.xbox.com).

Multimedia

Over-Ear Headphones

ATH-AVC500

Closed-Back Over-Ear Headphones

- Large 53mm CCAW bobbin-wound voice coil drivers reproduce full, wide range sound
- Anti-vibration aluminium housings ensure rich sound reproduction
- Self adjusting headband support mechanism automatically delivers the best possible fit
- Bass ports create tight, deep bass sound
- Soft foam earpads provide extra comfort while listening.

ATH-AVC200

Closed-Back Over-Ear Headphones

- Newly designed 40mm drivers reproduce clear mid-low frequencies
- Adjustable headband support provides comfortable fit even during extended wear
- Large headband delivers comfortable and stable fit
- Contoured earpads fit naturally over ears to help to provide rich bass.

ATH-AVA400

Open-Air Over-Ear Headphones

- Open-Air design, featuring 40mm CCAW drivers, delivers rich, detailed sound
- Honeycomb punched aluminium housings enable clear sound reproduction
- Self adjusting headband support provides comfortable fit even during extended wear
- Soft, cloth earpads reduce pressure on your ears.

audio-technica AT-LP120SBK

AT-LP5

Hi-Fi Direct-Drive Turntable (Analogue & USB)

- A perfect balance of technology and design, the sleek contemporary lines of the AT-LP5 turntable grace any room in the home while delivering performance features born out of Audio-Technica's rich analog heritage
- AT95EX Dual Moving Magnet stereo cartridge mounted on AT-HS10 Headshell with gold plated u-shaped connectors
- Original Audio-Technica J-shape design tonearm
- 5mm Audio-Technica heavy damping rubber mat
- 33 $\frac{1}{3}$ & 45 RPM selectable speeds
- Switchable analogue output (phono or line level)
- USB output for direct to Mac/PC recording (Audacity software included)
- Internal PSU with IEC Power Socket to provide superior grounding and allow upgrading of the power cable
- Dual female RCA analogue output socket to allow upgrading of the Dual RCA audio cable from Turntable to Hi-Fi system (phono or line).

AT-LP3

Fully-Automatic Belt-Drive Stereo Turntable

- Fully-automatic belt-drive turntable operation with two speeds: $33\frac{1}{3}$, 45 RPM
- Balanced straight tonearm with hydraulically damped lift control and lockable rest
- Built-in switchable phono/line pre-amplifier with attached dual RCA output cable
- Switchable modes for moving magnet and moving coil cartridges
- AT91R Dual Moving Magnet™ phono cartridge and AT-HS3 universal headshell
- Anti-resonance, die-cast aluminium platter with 4.5mm thick rubber mat
- Damped base construction for reduced low-frequency feedback colouration.

AT-LP120XUSB

Manual Direct-Drive Turntable (Analogue & USB)

- Experience the next generation LP120XUSB, designed in Tokyo, Japan by Audio-Technica, renowned for our high-fidelity equipment since 1962
- Direct-drive, DC servo motor
- Fully manual operation
- Adjustable dynamic anti-skate control
- Selectable 33 $\frac{1}{3}$ /45/78 RPM speeds
- Convert records to digital files via the USB output
- Professional anti-resonance, die-cast aluminum platter with felt mat
- AT-HS6 universal $\frac{1}{2}$ "- mount headshell and AT-VM95E Dual Magnet™ phono cartridge with 0.3 x 0.7 mil elliptical stylus
- AT-VM95E cartridge is compatible with any VM95 Series replacement stylus, offering a wide choice of options for every budget and application
- Balanced S-shaped tonearm with hydraulically damped lift control and lockable rest
- Built-in switchable phono pre-amplifier for phono or line-level output
- Stroboscopic platter with speed indicator
- Variable pitch control with quartz speed lock
- Removable plug type target light for easier cueing in low light
- Damped base construction for reduced low frequency feedback coloration
- AC adapter handles AC/DC conversion outside of the chassis, reducing noise in the signal chain
- Includes: USB cable, detachable RCA output cable (dual RCA male to dual RCA male), AC adapter, 45 RPM adapter, counterweight, felt mat, and removable hinged dust cover
- Available in black (AT-LP120XUSB-BK) and silver (AT-LP120XUSB-SV).

AT-LP60XBT

Fully Automatic Wireless Belt-Drive Turntable

- Bluetooth® turntable designed in Tokyo, Japan by Audio-Technica, renowned for high-fidelity equipment since 1962
- Wired or wireless, enjoy the best of both worlds with the LP60XBT
- Connects to the latest Bluetooth® speakers and headphones
- New Qualcomm® aptX™ codec improves your listening experience
- Fully automatic operation with two speeds: 33 $\frac{1}{3}$ and 45 RPM
- Integral Dual Moving Magnet™ phono cartridge with replaceable diamond stylus (ATN3600L)
- Available in a stylish black finish (AT-LP60XBT-BK) or a sophisticated white and black (AT-LP60XBT-WH).

AT-LP60XUSBGM

Fully Automatic Belt-Drive Turntable (Analogue & USB)

- Experience your vinyl's high-fidelity audio and convert your records to digital files
- Fully automatic belt-drive turntable operation with two speeds: 33 $\frac{1}{3}$, 45 RPM
- Improved tracking and reduced resonance for a smoother sound
- Integral Dual Magnet™ phono cartridge with replaceable diamond stylus (ATN3600L)
- AC adapter handles AC/DC conversion outside of the chassis, reducing noise in the signal chain
- Built-in switchable phono pre-amplifier for phono- or line-level output
- Convert your vinyl records to digital audio files by downloading and using the free Mac and PC compatible Audacity recording software (or software of your choice)
- Includes a removable hinged dust cover.

AT-LP60XHP

Fully Automatic Belt-Drive Turntable
with Headphones

- Experience the high-fidelity audio of vinyl
- Designed in Tokyo, Japan by Audio-Technica, renowned for our high-fidelity equipment since 1962
- Enjoy your records via speakers or headphones
- Fully automatic belt-drive turntable operation with two speeds: 33 $\frac{1}{3}$, 45 RPM
- Integral Dual Magnet™ phono cartridge with replaceable diamond stylus (ATN3600L)
- Includes: ATH-250AV headphones and a removable hinged dust cover.

AT-LPW30TK

Manual Belt-Drive Wood Base Turntable

- Optimal high-fidelity audio experience
- Teak effect wood veneer finish
- Connect directly to speakers at home with the built-in amplifier
- Fully manual, belt-drive operation with two speeds: 33 $\frac{1}{3}$ and 45 RPM
- Adjustable dynamic anti-skate control
- Professional anti-resonance, die-cast aluminium platter with rubber mat
- AT-HS4 headshell and AT-VM95C Dual Moving Magnet phono cartridge with 0.6 mil conical stylus
- AT-VM95C cartridge is compatible with any VM95 Series replacement stylus, offering a wide choice of options for every application
- Straight tonearm with hydraulically damped lift control and lockable rest
- Includes a rubber mat, and removable hinged dust cover.

Choosing the Right Cartridge

The ultimate performance potential of any record playing system is defined by the capabilities of the phono cartridge. Tonal balance, response range, clarity on musical peaks, stereo separation and imaging, and freedom from noise and distortion are all affected at the outset. Your choice of cartridge can affect the life of your records. With vinyl records becoming more and more difficult to replace, it's an important point to keep in mind when selecting a cartridge or upgrading your system.

Conical Styli

The benefit of conical styli - even if the cartridge is 'lean' - is that the ball surface of the stylus touches the groove of vinyl records precisely. Due to its stability, it has been used widely in radio stations.

Elliptical Styli

To reduce the tracking distortion and pinch-effect of a conical stylus, the elliptical stylus is made with a smaller effective radius to overcome these two conditions and provide more detailed audio content.

Line Contact Styli (Special Line Contact, Shibata, Microlinear)

Having a greater tracking ability than an elliptical stylus, the line contact styli will have a deeper contact area to the vinyl record groove. This enables the stylus to fully reproduce all content of the vinyl record with reduced stylus and groove wear.

VM760SLC

VM Dual Moving Magnet Cartridge with Special Line Contact Stylus

Using an ultra-lightweight stylus tip ground to a high level of precision, we have achieved a combination of low distortion rate with fuller frequency reproduction during playback. This stylus tip extracts every possible piece of information from the grooves on a record.

- Aluminium tapered cantilever
- Para-toroidal coils improve generating efficiency
- Centre shield plate between the left and right channels reduces crosstalk
- Die-cast aluminium alloy housing reduces vibration and adds a natural electrical shield.

VMN60SLC

Stylus

- Replacement stylus for VM760SLC
- Special Line Contact stylus
- Nude Rectangular Shank construction.

VM750SH

VM Dual Moving Magnet Cartridge with Shibata Stylus

Fitted with the Shibata stylus, which was developed for playing 4 channel vinyl records that demand high-frequency reproduction capabilities during playback. Not only for high-frequencies, it is also ideal for reproducing rich mid-and low-frequencies.

- Aluminium tapered cantilever
- Para-toroidal coils improve generating efficiency
- Centre shield plate between the left and right channels reduces crosstalk
- Die-cast aluminium alloy housing reduces vibration and adds a natural electrical shield.

VMN50SH

Stylus

- Replacement stylus for VM750SH
- Shibata stylus
- Nude Square Shank construction.

VM740ML

VM Dual Moving Magnet Stereo Cartridge with Microlinear Stylus

High-end model featuring a Microlinear stylus in an aluminium die-cast alloy body. In addition to outstanding high-frequency reproduction, this model enables clear sound image localisation.

- Aluminium tapered cantilever
- Para-toroidal coils improve generating efficiency
- Centre shield plate between the left and right channels reduces crosstalk
- Die-cast aluminium alloy housing reduces vibration and adds a natural electrical shield.

VMN40ML

Stylus

- Replacement stylus for VM740ML & VM540ML
- Microlinear stylus
- Nude Square Shank construction.

VM540ML

VM Dual Moving Magnet Stereo Cartridge with Microlinear Stylus

Standard model with a Microlinear stylus. Distortion is low even on the inner circumference of a record because the curvature radius of the stylus tip does not alter even if the stylus becomes worn.

- Aluminium tapered cantilever
- Para-toroidal coils improve generating efficiency
- Centre shield plate between the left and right channels reduces crosstalk
- Durable low resonance polymer housing.

VMN40ML

Stylus

- Replacement stylus for VM740ML & VM540ML
- Microlinear stylus
- Nude Square Shank construction.

VM530EN

VM Dual Moving Magnet Stereo Cartridge with Elliptical Stylus

High-end elliptical stylus model equipped with a light-weight nude elliptical stylus to reduce the execution mass of the vibration system. This enables fuller frequency reproduction.

- Aluminium cantilever
- Para-toroidal coils improve generating efficiency
- Centre shield plate between the left and right channels reduces crosstalk
- Durable low resonance polymer housing.

VMN30EN

Stylus

- Replacement stylus for VM530EN
- Elliptical Nude stylus
- Nude Round Shank construction.

VM520EB

VM Dual Moving Magnet Stereo Cartridge with Elliptical Stylus

Standard elliptical stylus model equipped with an elliptical bonded stylus. This reduces tracing distortion and allows for more accurate sound reproduction.

- Aluminium cantilever
- Para-toroidal coils improve generating efficiency
- Centre shield plate between the left and right channels reduces crosstalk
- Durable low resonance polymer housing.

VMN20EB

Stylus

- Replacement stylus for VM520EB
- Elliptical Bonded stylus
- Bonded Round Shank construction.

VM510CB

VM Dual Moving Magnet Stereo Cartridge with Conical Stylus

Entry-level VM cartridge model equipped with a conical bonded stylus. The round stylus is less likely to be affected by placement and boasts stable tracing performance.

- Aluminium cantilever
- Para-toroidal coils improve generating efficiency
- Centre shield plate between the left and right channels reduces crosstalk
- Durable low resonance polymer housing.

VMN10CB

Stylus

- Replacement stylus for VM510CB & VM610MONO
- Conical Bonded stylus
- Bonded Round Shank construction.

VM670SP

VM Dual Moving Magnet Mono Cartridge for Shellac or Phonograph Records

Model dedicated to 78 RPM records, whose round stylus has a large curvature radius at the tip. The curvature radius is 3 mil, and suitable for playing 78 RPM records from a wide variety of eras.

- Aluminium cantilever
- Para-toroidal coils improve generating efficiency
- Mono body terminating left and right channels reduces surface noise
- Durable low resonance polymer housing.

VMN70SP

Stylus

- Replacement stylus for VM670SP
- Conical (3mil) stylus
- Bonded Round Shank construction.

VM610MONO

VM Dual Moving Magnet Mono Cartridge for Mono Vinyl LP Records

Mono LP model with a conical bonded stylus in the body dedicated to monaural sound. Specialised internal wiring allows for reduced surface noise and stable sound reproduction.

- Aluminium cantilever
- Para-toroidal coils improve generating efficiency
- Mono body terminating left and right channels reduces surface noise
- Durable low resonance polymer housing.

VMN10CB

Stylus

- Replacement stylus for VM510CB & VM610MONO
- Conical Bonded stylus
- Bonded Round Shank construction.

VM540ML/H

VM Dual Moving Magnet Stereo Cartridge with Microlinear Stylus and HS10 Headshell

Standard model with a Microlinear stylus, comes pre-assembled with a lightweight aluminium headshell (AT-HS10). Distortion is low even on the inner circumference of a record because the curvature radius of the stylus tip does not alter even if the stylus becomes worn.

- **Aluminium tapered cantilever**
- **Para-toroidal coils improve generating efficiency**
- **Centre shield plate between the left and right channels reduces crosstalk**
- **Durable low resonance polymer housing**
- **Pre-assembled with a lightweight aluminium headshell (AT-HS10) for a quicker, easier set-up.**

VM530EN/H

VM Dual Moving Magnet Stereo Cartridge with Elliptical Stylus and HS10 Headshell

High-end elliptical stylus model pre-assembled with a lightweight aluminium headshell (AT-HS10). The nude elliptical stylus helps to reduce the execution mass of the vibration system whilst offering increased frequency reproduction.

- **Aluminium cantilever**
- **Para-toroidal coils improve generating efficiency**
- **Centre shield plate between the left and right channels reduces crosstalk**
- **Pre-assembled with a lightweight aluminium headshell (AT-HS10) for a quicker, easier set-up.**

VM520EB/H

VM Dual Moving Magnet Stereo Cartridge
with Elliptical Stylus and HS10 Headshell

Standard elliptical stylus model with an elliptical bonded stylus that reduces tracing distortion and allows for higher sound reproduction accuracy. Pre-assembled with a lightweight aluminium AT-HS10 headshell, the user can enjoy a hassle-free set-up.

- **Aluminium cantilever**
- **Para-toroidal coils improve generating efficiency**
- **Centre shield plate between the left and right channels reduces crosstalk**
- **Pre-assembled with a lightweight aluminium headshell (AT-HS10) for a quicker, easier set-up.**

VM95C

Cartridge with Conical Stylus

The AT-VM95C, the new Audio-Technica entry model Conical cartridge will replace the legendary AT90 Series models such as AT91, AT91R and CN5625AL. Also the AT-VM95C is a “budget” cartridge featuring a conical stylus, the compatibility in the range will allow to upgrade with any of the 4 other LP styli of the Series such as Elliptical, Elliptical Nude, Microlinear and Shibata.

- **Aluminium cantilever**
- **4.0mV output voltage**
- **Compatible body with all VM95 Series stylus assemblies**
- **Replacement for AT91, AT91R and CN5625AL.**

VMN95C

Conical Replacement Stylus for AT-VM95C

VM95E

Cartridge with Elliptical Stylus

The AT-VM95E, the new Audio-Technica entry model Elliptical cartridge will replace the legendary AT95E and take advantage of the developments of the AT95EX introduced in 2015. The AT-VM95E features an improved and distinctive design resulting in a more rigid low resonance housing, and two threaded inserts in the cartridge body enabling it to be mounted to the headshell or on an integral tonearm with just two screws, no nuts.

- **Aluminium cantilever**
- **4.0mV output voltage**
- **Compatible body with all VM95 Series stylus assemblies**
- **Replacement for AT95E and AT95EX**
- **20 to 22,000Hz frequency response.**

VMN95E

Elliptical Replacement Stylus for AT-VM95E

VM95EN

Cartridge with Nude Elliptical Stylus

The AT-VM95EN, features a Nude Elliptical Diamond. The construction of the stylus being a one piece diamond with a round shank inserted in the cantilever creates a lighter and more rigid transmission system than a diamond tip bonded on a round titanium shank such as in the AT-VM95E. Also the use of nude diamond implies a substantial difference in pricing, yet the quality of the reproduction will be immediately noticed, specifically in the fidelity of high frequencies and in the quality of the transient responses.

- Aluminium cantilever
- 3.5mV output voltage
- Compatible body with all VM95 Series stylus assemblies
- 20 to 23,000Hz frequency response.

VMN95EN

Elliptical Nude Replacement Stylus for AT-VM95EN

VM95ML

Cartridge with Microlinear Stylus

The AT-VM95ML, features a Nude Microlinear diamond, not only the Microlinear stylus will permit to double the duration of your stylus. The performance of a line contact stylus, will minimize the "inner groove distortion" as well as providing extended frequency response and maximize resolution in the medium and high frequencies of the audio program material.

- Aluminium cantilever
- 3.5mV output voltage
- Compatible body with all VM95 Series stylus assemblies
- 20 to 25,000Hz frequency response.

VMN95ML

Microlinear Replacement Stylus for AT-VM95ML

VM95SH

Cartridge with Shibata Stylus

The AT-VM95SH, features a Nude Shibata stylus, one of the most acclaimed stylus format by high end audiophiles. The Shibata stylus produces mid and bass sounds strong and rich in addition to offer a frequency response up to 25,000Hz.

- **Aluminium cantilever**
- **3.5mV output voltage**
- **Compatible body with all VM95 Series stylus assemblies**
- **20 to 25,000Hz frequency response.**

VMN95SH

Shibata Replacement Stylus for AT-VM95SH

VM95SP

78rpm Cartridge with 3mil SP Conical Stylus

Since SP records have monaural modulation, when combining an SP stylus with a stereo body, such as the AT-VM95SP, it is recommended to use the "MONO ON" function of your standard Stereo Phono Preamplifier to minimize record surface noise. AT-VM95SP, as stereo cartridge for SP mono records, when used with a dedicated archiving phono preamplifier equalizer incorporating various functions to generate a mono signal from Stereo inputs (Mono L+R, Mono L, Mono R, LR Variable Mix) allows professional archivers to minimize noise and distortion by sampling the least damage side of the grooves from an old record.

- **3mil SP stylus for reduced record surface noise**
- **Aluminium cantilever**
- **2.7mV output voltage**
- **Compatible body with all VM95 Series stylus assemblies**
- **20 to 22,000Hz frequency response.**

ATN95EX

Replacement Stylus

- Replacement stylus for AT95EX cartridge.

ATN91R

Replacement Stylus

- Aluminium alloy tube cantilever for the pick-up of subtle details
- Replacement stylus for AT91R
- Bonded conical stylus.

ATN95E

Replacement Stylus

- Replacement stylus for AT95E cartridge
- Also compatible with AT93 and AT95 discontinued models.

ATN91

Replacement Stylus

- Replacement stylus for AT91 cartridge
- Also compatible with CN5625AL and AT90 discontinued cartridges
- The ATN91 is also the upgrade replacement styli for AT3600L. The tracking force of AT3600L equipped with ATN91 is 2g - do not upgrade from ATN3600L to ATN91 when your tonearm does not allowed tracking force adjustment.

AT-HS10BK

Headshell

- The lightweight aluminium AT-HS10 is a universal $\frac{1}{2}$ "-mount headshell for 4-pin turntable cartridges
- Finger lift is positioned near the front of headshell for precise stylus placement
- Includes lead wires and mounting screws.

AT-HS10SV

Headshell

- The lightweight aluminium AT-HS10 is a universal $\frac{1}{2}$ "-mount headshell for 4-pin turntable cartridges
- Finger lift is positioned near the front of headshell for precise stylus placement
- Includes lead wires and mounting screws.

AT-HS6BK

9g Headshell Aluminium
Die Cast Body - black finish

- Includes terminals quad wire
- 1 pair of 10mm screws and 1 pair of 8mm screws
- 1 pair of M2.6 nuts with plastic washer.

AT-HS6SV

9g Headshell Aluminium
Die Cast Body - silver finish

- Includes terminals quad wire
- 1 pair of 10mm screws and 1 pair of 8mm screws
- 1 pair of M2.6 nuts with plastic washer.

AT-HS3
Headshell

- Lightweight aluminium headshell suitable for 1/2" - mount cartridges and 4-pin turntable arms
- Finger lift allows precise stylus placement
- Vivid red headshell design
- Includes lead wires and mounting screws.

AT-HS4
Angled Shape Headshell
for Straight Tonearm

- Compatible with AT-LPW Series turntables
- Includes terminals quad wire
- 1 pair of 8mm, and 1 pair of 10mm screws
- 1 pair of M2.6 nuts with plastic washer.

AT6006R

Tonearm Safety Raiser

- Lifts tonearm automatically at the end of a record, protecting stylus tip
- Hydraulic lift with rubber lift bar operates safely and smoothly
- Can be mounted on a variety of turntables with different tonearm height.

AT6003R

Cartridges Protective Display

AT6181DL

Stroboscope Disc and Strobe Quartz Light

- Stroboscope disc and light kit allows you to precisely check a turntable's rotation speed
- Yellow LED light provides a clear, accurate reading of 33 $\frac{1}{3}$, 45 and 78 RPM speeds
- Useful overhang guide is included on the stroboscope disc.

AT6180a

Stroboscopic Disc (50Hz / 60Hz) 33 $\frac{1}{3}$ - 45rpm and Overhang Adjustment Tool Display
