

Engineering emotional experiences.

Komodo CS,
designed to rethink contemporary design.

An innovative wooden panel with an acoustically optimised, precise perforation pattern. Distinct shapes shift and change with dynamic creativity.

A perfect balance.

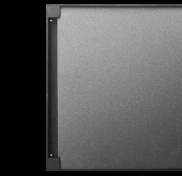

Valley CS,

inspiring yet subtly playful.

Distinctive and highly efficient, Valley harnesses your inspiration to create fine art pieces. Different elements can be connected in a variety of geometric patterns to generate unpredictable and (a)symmetric designs.

Cinema Series

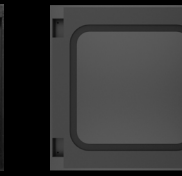

Core

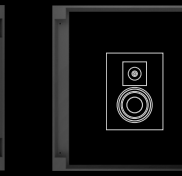

Absorber Core

Diffuser Core

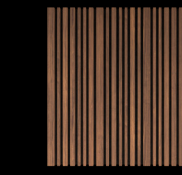

Bass Trap Core
PDA

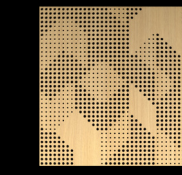

Speaker Core

A modular system made with four different options of core: an Absorber, a Diffuser, a Bass Trap, and a Speaker core. All the wooden cores are fitted with different acoustic covers that can be freely removed, swapped, or replaced.

Wood & Lacquered Designs

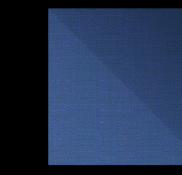

Siena CS

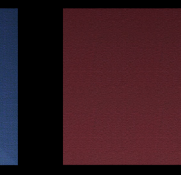

Komodo CS

Unique wooden designs for unique projects, tailored into beautiful, timeless, multifunctional acoustic solutions. This flexible range is adaptable to any environment, available in Lacquered & Wood Veneer finishes coated with an environmentally friendly natural wax-oil mixture.

Fabric Designs

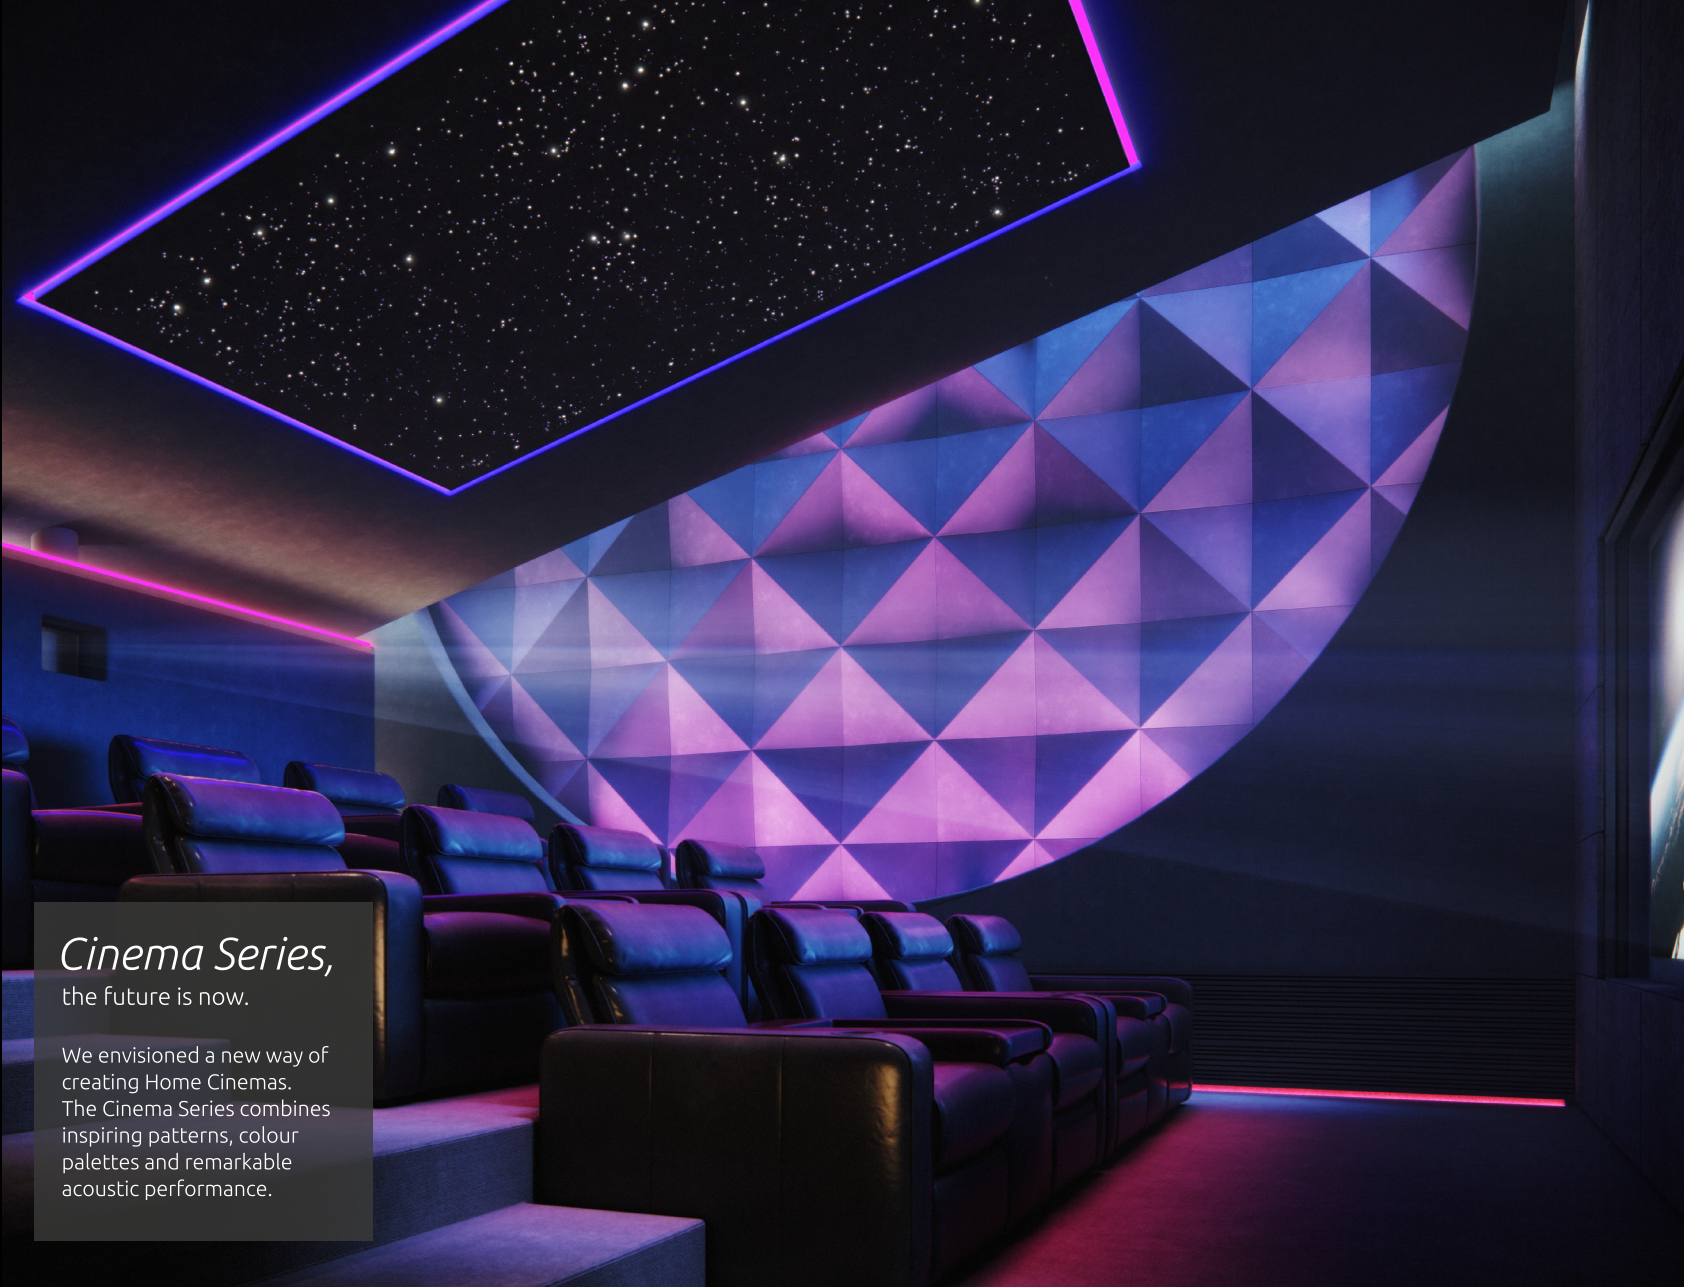

Valley CS

Helen CS

Dynamic shapes and minimalistic aesthetics in a selection of harmonious fabric colour palettes. A combination of premium, sustainable materials with an impressive performance creates the right atmosphere in any space.

Cinema Series,
the future is now.

We envisioned a new way of creating Home Cinemas. The Cinema Series combines inspiring patterns, colour palettes and remarkable acoustic performance.

Impulso App

A unique acoustic measurement App

Impulso is designed to assist audio enthusiasts and engineers to tune their rooms and select the best acoustic treatment. With a user-friendly layout, the room measurement is carried out in a few steps via the Apps intuitive interface.

Real-time acoustic simulation.

Co-Financed by:

Project Support

Assisting professionals every step of the way

Project Support is a tool designed to assist professionals. Based on the exact characteristics of each space, we provide the best acoustic treatment solution with breathtaking designs.
