Athos

PRO AUDIO & STUDIO Key Products

Absorption

Athos is a high-performance panel, designed to counteract reflections, concentrating on mid-high frequencies, while it's sleek surfaces and perforations also provide selective scattering over high frequencies, combining both effects in this distinct design.

Available in a range of finishes, and in FG and FR+ fire ratings.

These striking panels are a prime example of signature Artnovion.

Myriad F30

PRO AUDIO & STUDIO **Key Products**

Absorption

Myriad F Absorber - Myriad is an acoustic absorber panel, designed for rooms that require a simple and efficient solution for reverberation control. Made from high-performance acoustic foam, covered with a premium acoustic fabric, Myriad excels in the high-frequency range. Myriad unleashes its design potential when combining colours, allowing you to create beautiful designs and your own personalised patterns.

Myriad is very easy to install, with a self-adhesive backing. In minutes you can have your room acoustically treated and ready to use.

Available in range of colours.

Myron E

PRO AUDIO & STUDIO **Key Products**

Diffusion

In spaces like recording control rooms, sound mastering rooms or other high-fidelity listening environments - where the sound quality is critical - controlling the bandwidth of diffusion is a priority.

Myron E Diffuser was conceived and developed by Artnovion with a specific technical advantage, which allows it to perform way beyond most other sound diffusing products.

This EPS panel is available in 3 different colours and is especially easy to install.

Fixings

PRO AUDIO & STUDIO Key Products

Fixing Systems

FixArt Tube brings versatile solutions for panel mounting. With the customer in mind, Artnovion developed a reliable, simple, universal system to mount acoustic panels. Easy to install, easy to align, with a simple template and clips included.

GlueArt adhesive is made from E-SBR (styrene-butadiene rubber) specifically designed to bond acoustic panels. It is a polymer adhesive with superior efficiency in comparison with other products on the market. With a higher durability, reduced shrinkage, increased flexibility and resistance to emulsification in damp conditions. It is suitable for a vast range of surfaces.
