

# Is It Illegal To Buy Instagram Followers (REAL & CHEAP) – Grow Your Account Today!

## Quick Answer:

Buying Instagram followers isn't typically against the law.

Want more people to see your posts? Feeling like your Instagram isn't growing as fast as you'd like? It's normal to look for ways to boost your numbers and get your content in front of a wider audience. Let's explore how getting followers works and what you should know.

## Can I Legally Purchase Instagram Followers?

Generally, purchasing Instagram followers isn't considered illegal. Laws are usually focused on things like fraud or stealing information, and simply buying followers doesn't fall into those categories.

However, it's important to understand *how* these followers are delivered. Most services provide followers through automated accounts. These accounts are created to follow many users, and aren't necessarily "real" people engaging with your content.

Here's a breakdown:

- **No Direct Law:** There isn't a law specifically saying you can't buy followers.
- **Terms of Service:** Instagram has rules about how people use the platform. Buying followers *can* go against these rules.
- **Automated Accounts:** Most services use automated accounts to increase follower counts.

## What About Different Types of Followers?

There are a few different ways to get followers. Here's a quick look:

1. **Automated Followers:** These are bot accounts, created to simply increase numbers.
2. **Inactive Accounts:** These are accounts that don't post or engage much.
3. **Real Followers (with limitations):** Some services offer followers from real accounts, but engagement might be low.
